# BIOGRAPHY

He was born on 11 August 1990 in Cagliari (Italy - Sardinia).

He lives and grows up with his family in Turin until the age of 22.

Already as a child he noticed a great talent for drawing, precision and order. From 2004 to 2009 he attended a technical school where he developed a great passion for design.

He studied architecture at the Turin Polytechnic and received his bachelor's degree in 2013 with a research project on the legendary ancient architecture of Piedmont and Sardinia. In 2014 he studied for a year at the Polytechnic University of Madrid, where he took over the teaching of professors of international caliber such as Alberto Campo Baeza and Rafael Ruiz Cabrero. After his return from Spain, he was invited as a guest scientist to HafenCity University Hamburg in 2015 to develop research on the "Relationship between the university and the city" and realized as a final project under the direction of Prof. Paolo Fusi the renovation project of the historic Von Melle Park Campus in Hamburg.

His master thesis is published with great interest in Chair. During his time in Hamburg, he worked together with the architectural firm "GRID Architektur + Design" to realize some luxurious single-family homes in Hamburg and an important urban renovation project in Wesseling (Cologne). For two years he worked in the office of Thomas Herzog in Munich and realized major international projects, especially in China, for example by winning the competition of the Drachensee Kulturquartier" in Changchun, where later several important buildings such as two museums, a central library, a youth center and an opera & theater are realized. In 2018, he joins the Vollaack Group in Karlsruhe, where he implements large projects in the office and large logistics sector for private companies with very high cost volumes.

Among the most important clients are Volksbank, Sparkasse, SIXT, NH-Hotels, BIG and Gore. Between 2018 and 2022 and project manager and management general planning for the project of the new AWO-Baden headquarters in Karlsruhe-Kirchfeld (12 million € construction costs).

Since 2018, he has been realizing private projects for the resettlement of real estate units in Italy and Germany with outstanding success and customer satisfaction. He is active in conferences and cultural events related to architecture and is invited to exhibit his projects in technical schools and universities, especially in Italy, Germany and Spain. Countries where he lived and where he built up a good network.

# UNIVERSITY BACKGROUND

**2016**

**Technische Universität Dortmund**

Tutor | Workshop „Frühjarsakademie“

**2015**

**HafenCity Universität Hamburg**

Guest Researcher | Final Project

**Politecnico di Torino**

Master's Degree | Architecture & Sustainable Design

**2014**

**Universidad Politecnica di Madrid**

Guest Student | LLP Erasmus Programme

**2013**

**Politecnico di Torino**

Bachelor's Degree | Architecture & Sustainable Design
